- Squirrel cage induction motors, Series HE, three phase, from 1 to 30 hp (0.75 + 22kW), 600V ac, 60Hz, TEFC, 2 through 4 poles, insulation Class F, horizontal or vertical, foot or flange mounting.

Notes:

1. Certified as component type motors for use in other equipment where the suitability of the combination is to be determined by the Canadian Standards Association.
2. Suffix letters and or figures may be added to the type designation to indicate the number of poles, extra stator length, brake and minor mechanical variations.

TO THE REQUIREMENTS OF CSA STANDARD C22.2 NO. 100-95:

Series DV

- Squirrel-cage induction motors, single-phase, from 0.15 to 3.0 hp (0.11, 2.2 kW), dual voltage 125/250V ac max, 60Hz, TEFC 2 through 4 poles, insulation Class F, horizontal or vertical, foot or flange mounting, can be provided without terminal box (flying leads) upon request.

Series DVE

- Same as Series DV, except for the use of a Certified electronic device for single-phase motor starting and two capacitors.

Note: Certified as a component motor for use in other equipment where suitability of the combination is to be determined by the Canadian Standards Association.
